

# Borland C++ 3.0 Programming: Includes Windows Programming

The screenshot shows the Borland C++ 3.0 IDE interface. The main window displays a C++ source file named NONAME00.CPP with the following code:

```
#include<iostream.h>
void main()
{
cout<<"Welcome to Programming";
getch();
}
```

The code is highlighted in a light blue color. Below the source code, a message window displays the following error message:

```
Compiling NONAME00.CPP:
Error NONAME00.CPP 5: Function 'getch' should have a prototype
```

The error message is highlighted in a light green color. The IDE interface includes a menu bar at the top with options: File, Edit, Search, Run, Compile, Debug, Project, Options, Window, Help. At the bottom, there is a status bar with the following text: F1 Help, Space View source, Edit source, F10 Menu.
